## PRODUCT SPOTLIGHT

### Introducing the Ultra Graze Mix: A Versatile Cover Crop Solution

Cover crops continue to play an increasingly important role in farming operations by improving soil quality, retaining moisture, providing a nitrogen source, and serving as a valuable forage option. With government incentives encouraging the use of cover crops, demand has been on the rise.

To meet this growing need, Phillips Seed has developed the **Ultra Graze Mix**—a versatile blend designed to provide ground cover and forage from **early spring through late fall**.

#### Ultra Graze Mix Includes:

-Oats -Field Peas -Flax -Sorghum Sundangrass  
-Clover -Rape Seed -Collards -Brassica

This diverse mix offers a wide growing window, exceptional soil improvement, and excellent grazing potential. As you plan for the upcoming growing season, consider incorporating the Ultra Graze Mix into your operation to maximize productivity and soil health.

For more information or to order, contact your Phillips Seed representative today!

### Important Notice for XtendFlex® Soybeans

You may notice a new label or tag on our soybean seed this year. This label states that **no Dicamba herbicide has been approved for in-crop use with XtendFlex® Soybeans**.

Please keep this in mind as you plan your herbicide program for the season. If you have any questions, don't hesitate to reach out to your Phillips Seed representative.
