Shore up your corn, soybean, grain sorghum and alfalfa orders as soon as you can.

The early part of the sales season for these products is nearly behind us. That means that certain hybrids and varieties may be getting tight in supply. Priority is given for early orders and even more when it's paid for. There is an **9% early cash discount through November 30, 2022**, and an **8% early cash discount through December 31, 2022**. The savings options are very good through the end of the year. Get your orders in soon!

► **It's official, soybean replant is free when purchasing treated soybean seed from Phillips Seed Farms!** Yes, free replant for Phillips Seed Farms (PSF) customers ordering PSF Bundle 1 or Bundle 2 treated seed. The program now includes all trait types...see chart at left. If you are a dealer that treats soybeans, the program works for you too. Just purchase treated seed or your soybean treatment from PSF. PSF Bundle 1 and PSF Bundle 2 treatments are the eligible treatment options. Stay tuned for the last available program date.

Phillips Research & Development

PSF's (PR&D) research program yields top flight, next generation products. To earn the "YieldBoss Genetics" stamp of approval, products tested have to rise to the top of the research trials in multiple states, multiple locations and multiple years. Test varieties have been selected from hundreds of potentials. Actual number of test products vary from year to year. The 2022 Rep Testing Summary:

CORN (21 Loc's-3 states)	SOYBEANS (17 Loc's - 3 states)	GRAIN SORGHUM (8 Loc's - 1 state KS)
